DOC. No. XI.

VIRGINIA MILITARY INSTITUTE.

Semiannual Examination, January 1855.

ADJUTANT GENERAL'S OFFICE,
RICHMOND, January 25, 1855.

Excellency GOV. JOHNSON.

IR,

I transmit herewith a communication from the superintendent of the military itute, covering a report of the semiannual examination of the cadets; a tabular state-nt showing the number of pay and state cadets admitted into that institution since its anization in 1839, the number of graduates of each class, and the number on duty; also ll statement of the annual expenses of each pay and state cadet who has graduated in last five years.

Very respectfully,

Your ob't serv't,

WM. H. RICHARDSON, *A. G.*

HEAD QUARTERS VA. MILITARY INSTITUTE,
January 11, 1855.

J. H. RICHARDSON,
Adjutant General.

SIR,

I have the honor to transmit herewith the report of the semiannual examination the cadets of this institution.

Accompanying this report is a tabular statement showing the number of pay and state lets admitted into the institute since its organization in 1839, the number of graduates of h class, and the number on duty.

With the view of furnishing to the board of visitors satisfactory and authentic informa- n as to the expenses of the cadets, I have had prepared, from the books of the treasurer, ull statement of the annual expenses of each pay and state cadet who has graduated in last five years, including the present graduating class. Although the accounts of the asurer include many items of expense which are not embraced in the estimates made by board in their letters of appointment, the results fully confirm the accuracy of these imates. The statement includes, for a *pay cadet*, every expense at the institution, viz: tion, board, washing, fuel, lights, bedding, *clothing*, medical attendance, books, stationery, stage, pocket money, rooms, furniture, &c. The *state cadet* being at the charge of the titute for most of these items, the statement embraces for such, the average annual arge for his clothing, pocket money, postage and incidentals, these being the only ms of expense borne by the state cadets.

The table gives the following result:

verage annual expense of a pay cadet for the class which graduated July			1851,	$279 10
Do	do	do	1852,	292 76
Do	do	do	1853,	328 29
Do	do	do	1854,	307 29
Do	do	do	1855,	300 71
Do	state cadet	do	1851,	91 98
Do	do	do	1852,	87 63
Do	do	do	1853,	105 23
Do	do	do	1854,	103 33
Do	do	do	1855,	99 56

For both classes of cadets the above statement embraces the charges for twelve months, nd not for the ordinary collegiate term of nine or ten months, and exhibits a result which ay not only be relied upon for its accuracy, but which will favorably compare with any ther institution in this country. Indeed, it is doubtful whether any college in the United tates can give the information here presented, but which the peculiar government of this stitution enables us to furnish, not for the graduates of five years merely, but for every adet of every year since its establishment in 1839. Of course the results do not embrace oney received by the cadets without the knowledge or authority of the superintendent. he regulations specially interdict this; and if any additional charge results in this way, the arent or guardian alone is responsible, not for the expense merely, but for the conse-

quences in a moral point of view, which such a departure from the rules of the institut invariably superinduce. Complaints are often made against the institution on account c the seeming extravagance allowed in those cadets who leave the institution without com pleting their full course. A moment's reflection will show the injustice of these complaint A cadet enters the institution in July. He is supplied with his summer and winter outf of clothing for that year, the fiscal year commencing in July. As the next summer ap proaches, he needs a new outfit, which is always supplied in the month of June, in antic pation of the meeting of the board of visitors. Should he be discharged by the board i July, he will only have been one year a cadet, but he will have been supplied, neverthe less, with clothing for six months of the second year, and with an outfit in many othe articles for the whole of his course. These articles are not lost to the cadet. His uniforn he readily exchanges for citizens' clothing, and his other articles of clothing he carries hom with him, and often wears for years after his connection with the institution has ceased.

In conclusion, I would state that the health of the cadets has been unusually good.

Yours, very respectfully,

FRANCIS H. SMITH,
Superintendent.

ROLL OF THE CADETS

of the Virginia Military Institute—arranged according to Merit in Conduct for the Six Months ending January 1, 1855.
